

# Percurra

**Who we are** We are a private care at home provider offering an excellent range of support services for adults who require support to 'live their life, their way'.

Our specialist teams have specific training and experience to understand the complex needs and differing areas of learning disability and autism.

We take the time to get to know the individual and their support network and we carefully match them with team members who can share their activities and interests

**What we do** We create opportunities for those with autism and learning disabilities and their families to make **choices** that lead to a more fulfilling and independent life.

**What's new or different?** **Groups** – building self-confidence, independence and community links through regular group activities.

**Holidays** - offering reassurance, encouragement, companionship and whatever level of personal care is required.

**Companionship** - carefully matching our staff to the interests and personality of each client

**Personal Care Services** – our staff receive additional training in caring for and communicating with adults with learning disabilities

**Who is it for?** Adults (over 18's) who require help to remain living independently in their own home.
