

Meeting Notes – 8th June 2016

Nottingham City Learning Disability
Autism Partnership Board

We use a paperclip symbol when there is extra information with these notes or on the SPLAT website:
<http://www.nottingham-splat.weebly.com>

Welcome

22 people came to the meeting.

Introductions

Everyone said their name and the group or organisation they speak for.

The list of people who came to the meeting and people who said they could not come.

Actions from last time

Most things we said we would do are covered in the updates.

We now have an **information checklist**. We would like organisations to say how they will use this to give people information to make decisions.

Carers are being asked to do lots of things so the groups we already have will talk to their members about Splat and make sure we hear their ideas.

Splat report and celebration

The Working Group said we need more time to really involve them in planning the celebration.

We will have the celebration in October or November. Martin Jackaman will host a planning group.

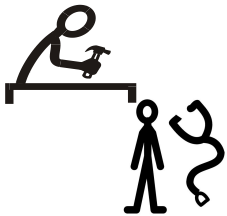

Annie and Ken will send the report in early July. It will have links to presentations and reports on the Splat website.

Cllr Jackie Morris now has time to be the Splat Chair. Ken will talk to her about the best way to be involved.

Information checklist

Work and Health - update

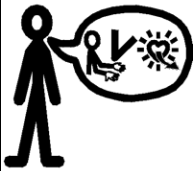

Claire said the Big Work Group will become part of the Council's Whole Life and Disability work.

Jake Jacobs is leading this. He would like to come to a Listening Day to talk about how to work together.

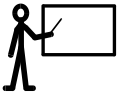

Liz used Splat's ideas in the Health and Wellbeing Strategy. She will add in the ideas from the CCG focus group.

Advocacy - update

The new City and County advocacy service for health and social care will start in October 2016.

Advocates must have the right training and skills.

They will only give **statutory advocacy** (advocacy the law says people must have).

The service will tell people who cannot get advocacy about other organisations that could support them.

The Councils and CCGs have money for 2 years to support people who cannot get advocacy. They will work with carers and self-advocates to think about how to use this.

We talked about this at the Advocacy Day – one idea is to have 'Advocacy Champions' in services.

Things we voted and agreed about advocacy:

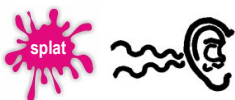

- People agreed we need clear information about the advocacy service and how to contact them.

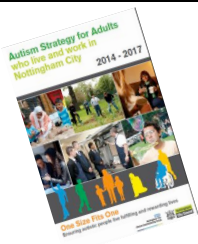

- Rasool will talk about the contract at the September Board and talk about advocacy training for staff.

- Splat will be involved in saying how the service is working and what it feels like for people who use it.

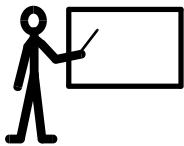

- Rasool will ask the new advocacy service to come to the listening Day in October.

Autism Co-production Group - update

The website is up now and a small group of people will work on what goes on it.

City Council staff and other organisations are doing 'e-learning' training about autism.

The group are looking at other ways to get involved in training.

In July there will be a training video on the City Council website.

In September there will be training for GPs

New Website Directory

Amy Groom talked about the new directory website which will start in October – it will be like 'Tripadvisor' to help people choose services'.

The Council has learnt from the problems with Choose My Support.

Amy wants to make sure this website is easy to use and will involve Splat in checking this.

Fasttrack - update

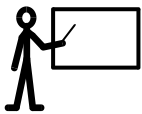

Fasttrack is a government plan to help people get good care and support in the community.

Rachel said the CCG project will look at 6 things:

1. Working together to keep people safe and stop them having to go back into hospital
2. Community support to stop people going into hospital
3. Trying out a community crisis team for one year

4. Finding out what staff need to know so the CCG plans the right training

5. Money to pay for the right care and support (using things like personal budgets)

6. Communication and involving people – finding out what people think. Groups to check the CCG is doing the things people need.

Things we agreed about Fasttrack:

- The police should be involved – they are looking at how to support people properly

- Rachel or a member of the team will feed back at the Listening Day -about how SPLAT can be involved.

Safe places - update

Denise said they advertised Safe Places on the trams.

There is information on the DVD and the SPLAT website.

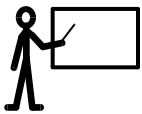

There will be a short 'trailer' advertising Safe Places at the cinema.

Denise is working on a map to show where Safe Places are and tell people about them. She will show this to people at the Listening Day.

She wants to know whether people would use a Safe Places phone app. There is a link to the questions in these notes.

Self-advocates do training to help people understand learning disability. There is information about the July workshop with these notes.

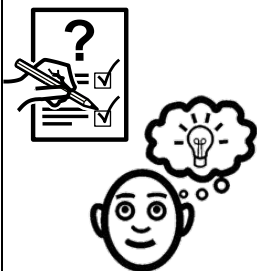

- Link to the Safe Places survey
- Link to information about Learning Disability Awareness workshops

Vulnerable adults plan update

We used information from Splat reports and presentations to answer the questions.

Alan Lowen is working on the plan. He said the ideas were really helpful. He said Jim did a great job on an easier to read version of the paper in a short time.

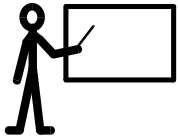

CCG Plan – what people said

Nottingham City Clinical Commissioning Group is looking at the most important things to work on for the next 4 years.

Some members of Splat went to a meeting. They said what they think is good and what could be better.

Anthony and Ian showed a presentation from the Working Group and a video about treating patients well.

What we agreed about the CCG Plan

- The CCG meeting was a good way to involve people. Some consultations are not so good. We will talk about this at the next Listening Day.

- We will send Owen Anthony from the CCG a copy of the presentation and ask him to come to a meeting to talk about how they will use our ideas in their plan.

Presentation - what people said about the CCG Plan

Video – Testing my Patience

CCG Survey

Community Based Health Services

Della said the NHS need to save money but still give a good service.

There were 9 small teams in Nottinghamshire and Nottingham City

Now there are 4 bigger teams.

Della said things would not change much for the City.

It means all the staff are together in one place with senior staff to support less experienced staff.

Kate said she will make sure people work together in the same way.

What we agreed about Community Health Services

• Self-advocates were worried about the changes but understood it better when Della explained it.

• Della will show their video to the NHS Board.

• Della will involve Splat in checking how things are going and talk to us if they need to make changes.

- Della's report – Community Based Health Services
- Working Group Presentation - Community Based Health services

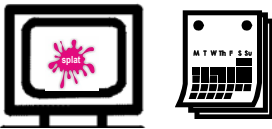

News-round

Learning Disability Week (20th – 26th June)

The theme this year is Friendships and relationships.

Splat will start a 'What's on' section on the website. Please send us links for activities, clubs and groups that Jim can add to this.

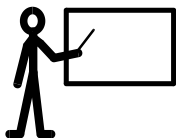

The CCG will use the week to show what they are doing and how relationships can help keep people safe.

Trevor said NHS England and the Royal Pharmaceutical Society want to stop adults with learning disabilities being given strong drugs to calm them down.

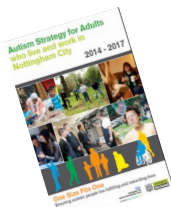

This is a link to the work:

FREE Care Act Training

The County Council has given Percurra money to do more of this training.

Autism Event

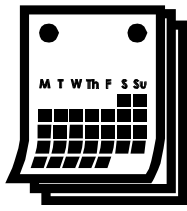

This will be at the Council House on 28th September from 3.30pm.

As this is right after the Board meeting we might have to meet a little earlier.

Metropolitan

Tim said Metropolitan's Include Service has funding for another 3 years

2016-2017 SPLAT Board Meetings

Wednesday 28th September 2016

Wednesday 7th December 2016

Wednesday 8th March 2017

All 12.30 – 3.30pm at The Council House

Please email Ken to find out more:
